If this document, or any advice, relates to the acquisition, or possible acquisition, of a particular financial product, you should obtain a product disclosure statement relating to the product and consider the statement before making any decision about whether to acquire the product. An investment in notes or corporate bonds should not be compared to a bank deposit. Notes and corporate bonds have a greater risk of loss of some or all of an investor's capital when compared to bank deposits. Past performance of any product described on any communication from Cashwerkz is not a reliable indication of future performance. Forecasts contained in this document are predictive in character and based on assumptions specified the document and generally available at the time and no reliance should be placed on the accuracy of any forecast information. The actual results may differ substantially from the forecasts and are subject to change without further notice. Cashwerkz is not licensed to provide foreign exchange hedging or deal in foreign exchange contracts services. Cashwerkz may quote to you an estimated yield when you purchase a bond. This yield may be calculated by Cashwerkz on either A) a yield to maturity date basis; or B) a yield to early redemption date basis. Some bond issuances include multiple early redemption dates and prices, therefore the realised yield earned by you on the bond may differ from the yield estimated or quoted by Cashwerkz at the time of your purchase.
